Outi Karhuvaara joined Papula-Nevinpat in August 2024 as a trainee patent attorney. Before that, she worked at Papula-Nevinpat as an IP Administrator.

Outi graduated with a Master of Science in January 2018, majoring in biochemistry. She has worked as a researcher and PhD student in an interdisciplinary research group focusing on immunology and environmental medicine, and as a research assistant in a molecular biology laboratory. As a researcher, her areas of expertise include immunology, cell and molecular biology, genetic engineering, and biomedicine.

Technical fields

Biotechnology

Chemistry

Food technology

Core expertise

Biochemistry, Genetic engineering, Microbiological processes, Pharmaceuticals

Languages

Finnish, English

Education

Master of Science, Biochemistry, University of Turku, 2018
