Juho Liekkinen joined Papula-Nevinpat as a trainee patent attorney in 2024.

He graduated with a M.Sc. (Tech.) degree in environmental biotechnology in 2017, and has also studied biomass processing. Juho will receive his Ph.D. in 2024 in materials research and nanosciences. As a researcher, his specific areas of expertise have been biological surfactants, carrier and receptor proteins, surface chemistry, molecular modeling and computational biological physics.

Technical fields

Biotechnology
Chemistry
Material science
Process engineering
Wood processing

Core expertise

Biochemistry, Biofuels, Bioplastics, Chemical engineering, Environmental technology, Microbiological processes, Paper machines, Waste treatment

Languages

Finnish, English

Education

M. Sc. (Tech.) (environmental and energy technology), Tampere University of Technology, 2017
