Mikko Nissinen is a registered patent attorney at Papula-Nevinpat.

Mikko started his intellectual property career in 2010 as a trainee at the Finnish Patent and Registration Office (PRH). In 2011, he began working as a patent examiner at the PRH, specializing in patent applications relating to conveyors, storage devices and packaging technology. He also worked as a part-time consulting engineer, advising in patent and utility model matters. In 2016, Mikko moved on to work at Papula-Nevinpat.

His duties now include drafting patent applications, prosecuting patents and advising customers in their patenting issues.

Technical fields

Automation
Construction engineering
